Quantum theory seems to imply that each time a choice is made between one alternative and another, the road less travelled or the common path, both choices are taken in a sense and two diverging realities branch off into alternative futures. Since myriad choices are made each moment, infinite realities are constantly created, and each continuum truly exists in the Multiverse our reality is part of. Mystics might picture this process as an ever-branching tree, growing in magnificent complexity, each branching-place marked by the starry spark of a magical act; and if our actions cause new universes to exist, then We are the Creators of those Universes!

We meet again in celebration. Branching realities intertwine, creative energies dance and spark between. Divinity glitters like diamonds in three-billion-year-old carbon...

We are Starwood...
We are Golden...

The Association for Consciousness Exploration

invites you to the **Starwood Festival**, featuring over 100 classes and workshops by both local and internationally-acclaimed artists and speakers from a variety of spiritual paths and fields of study. Our festival community, expected to exceed 1200, will delight in our daytime concerts and evening entertainment, beginning **Tuesday** with the **Welcome Wagon Jam**, when the drumming really starts to get hot and impromptu jams spring up around the campground. On **Wednesday** the **Starwood Parade**, a carnival of spirit and body starring all of us (with a "Kid's Kontingent"), dances through downtown Starwood before sunset ending at the rockin' video **Dance Party**: starry skies, any-clad dancing and world beat dance mix, sparked with laser lights and toasty video insanity, followed by animated shorts and our feature film **Fern Gully**. **Thursday** is **Bardic Performance Night**, when our stage is open for songs, poems, or other short behaviors, after which A.D.F. will host the Midnight Ritual. **Friday** is **The Concert**, topped off by **Testburn's** island fireworks and lightshow extravagonzo: a pyroelectrical-audioferroptical performance spectacle. **Saturday** night is reserved for our now legendary **Bonfire**. To the rhythm of Starwood's magical drummers, over a thousand of us swirling our gypsy energies around the blazing heart of Starwood, dancing with the moon and stars...

SOME CONSIDERATIONS

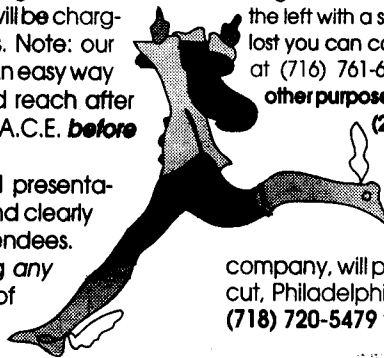

Brushwood, our festival site, is 180 acres of majestic woodland and rolling meadow, owned by a veteran Starwood attendee. There is a large pond with a center island and an in-ground, fenced and roofed pool pavilion - and a spacious popular hot tub! Children's swimming must be supervised. Hot showers and flush toilets add to our comfort.

This is a semi-developed camping facility (no RV hook-ups). Bring safe lighting sources, water containers, and grills or camp stoves. There are some wooded areas for shady camping, but canopies and dining flies add comfort. Nights in New York State can be cold, so warm clothing and extra blankets are a must.

Admissions will be closed each night between 1a.m. and 8a.m. Plan to arrive outside these hours or contact us to make prior arrangements. Our parking is located at the front of the site. Vehicles must leave once unloaded; special arrangements **MUST** be made when you register if your vehicle absolutely must stay on site. To insure privacy and security, you must sign a waiver and **wear the ID** given to you at all times. Parents of small children will be given a KidSafe form to attach to the outside of your tent, so we can find you on the site if necessary. Brushwood is a clothing-optional site EXCEPT in the area directly visible from the road or where indicated by signs.

Merchants are very welcome, however we will be charging a nominal **merchants' fee** of twenty-five dollars. Note: our program booklet could include **your** coupon or ad. An easy way to let attendees know you're there - plus extended reach after they leave! For ad rates and requirements, contact A.C.E. **before June 25th.**

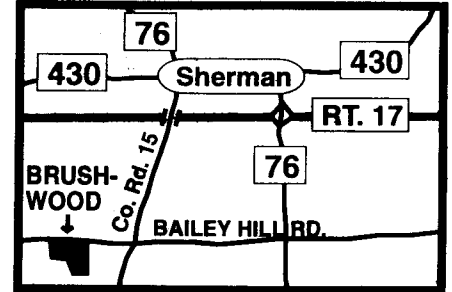

A.C.E. will be videotaping some selected presentations. These tapings will be noted on the program, and clearly marked to include only the presentation, not the attendees. This does **not** relax our long-standing policy banning any photography without the knowledge and consent of those photographed.

We like the fact that **recycling** is mandated by law in New York. We will have bins strategically located for your convenience (*deposit daily, PLEASE*), but if you **PACK GREEN**, it will lessen the load for all of us. In the midst of such beauty, how can we do otherwise?

WORK DONATION: We ask that all attendees donate a minimum of two hours of their time to help the festival run smoothly. Beyond creating a sense of community, it is vital to an event of this scope. THANKS!
